

History

Within history, we will be looking at how farming has changed over time and where the nearest farms are to Southwick. We will be looking at the foods that our grandparents used to eat in comparison to what we eat now.

Geography

We will be learning about the land needed for a farm and how farmers grow their crops. We will be looking at the local farms and compare this to a farm in a different country.

English

In English, we will be using persuasive writing to produce menus, posters, invites and advertising flyers that relate to our topic. We will also be using a range of narrative texts to help us develop our understanding of a story and the writing techniques used. Finally, we will be doing some information writing when we plant some flowers, such as instructions and a leaflet about different plants.

Numeracy

In numeracy, we will be revising our doubling and halving skills to move onto multiplication and division. We will continue to practice our 2's, 5's and 10's while putting these into problems allowing the children to practice their problem solving skills. We will be looking at the difference between 2D and 3D shapes and recognizing and naming them. Finally we will be collecting our own data and putting this into pictograms and bar charts.

OUR VALUE: Responsibility and Humility

During our first term we will be looking at responsibility and what it means to be a responsible learner. During our second term we will be looking at humility and how we can apply this value in our day-to-day lives.

Art and DT

Our topic this term is Art and DT based so we will be learning about healthy meals and making some healthy snacks for a teddy bears picnic. We will be designing our own healthy meals and making these from a range of materials. Finally, we will be learning the primary colours when studying the work of Van Gough.

Computing

We will be using beebots to program as well as learning about internet safety.

Food Glorious Food!

Summer 2015
Class: Kingfisher

Science

In science, we will be learning about plants and being able to label the different parts. We will move onto learning about light and how a shadow is formed by making our own shadow puppets.

PE

We will be doing PE every Wednesday morning after break so please can you ensure that your child has their PE kit in school. We will be developing skills in games, gym and athletics.

RE

Within RE, we will be learning about Shabbat and why this is important to Jewish people. We will move onto learning about Chanukah.
